8th International Conference SPONSORSHIP

February 2-4, 2021

JOIN US FOR THE 2021 100% VIRTUAL BIOXFEL CONFERENCE

The annual International BioXFEL Conference brings together experts in a variety of fields (structural biology, physics, biochemistry, and more) to discuss the most recent advances in structural biology using X-ray Free Electron Lasers (XFELs). The conference features talks by leading scientists in the field, a poster session, as well as networking, and professional development opportunities.

TOPICS COVERED INCLUDE:

- New Insights into SARS-CoV-2
- Remote Operations at XFELs
- Single Particle Imaging
- Time-resolved Serial Femtosecond Crystallography
- Data Analysis Advances
- From Sample to Structure Introduction
- Solution Scattering
- New X-ray Technologies
